Mixing Procedure

Into a suitable vessel equipped with mixing capabilities, add D.I. Water and Plantapon 611 L and mix. Add in Polyquaternium 7 and mix well. Add preservatives, dyes, and fragrances to your liking. Add Salt to thicken as desired. Mix to uniformity. Stop mixing.

This thickens with salt, makes an excellent foam, and is compatible with other various conditioning additives. It is easy to make as well as easy to use. We hope you will enjoy the result of this formulation. Thank you for using our products!
